

Our Mission Statement

...enabling people to live everyday with dignity and independence.

Our Values

We are committed to taking the time to get to know each client and their family so that we can work together to meet their specific needs.

Our Focus

Our primary focus is on ensuring that our clients and their family have the best quality of life possible.

By working together, we are able to develop a plan that meets both immediate and long-term needs

About Us

Hello, my name is Val Garneau. In 1999 I started Angel Helping Hands because I saw a need within my community that I knew I could meet. My company knows each client by their name, not a number. We work with the client and their family to develop a plan that works for them and meets their specific needs. Institutional care may work for some but there are so many people who are forced to give up their independence before they are ready because they can't find the support they need at a price they can afford...until now.

Contact me today and let's talk about what we can do to help you keep the independent life you love, for as long as possible.
